

@Arrrland NFT

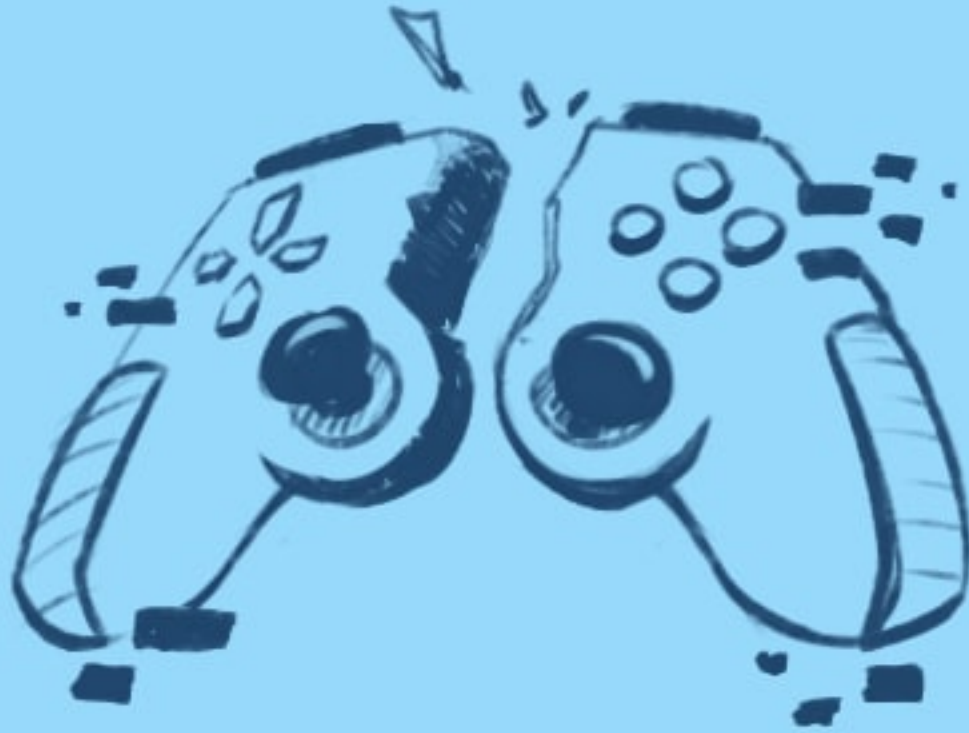

The first game ever to combine Multiplayer Online Battle Arena with an economic and strategy game in a pirate world!

IMMUTABLE X

There are Problems with web3 games

Low quality games

- Shallow gameplay
- Low quality graphics
- Only single player
- Another game with sci-fi enviro
- Mostly First Person Shooters (FPS)

„It's a scam!“

- Game never will be delivered
- It will be weak like other web3 games
 - I need to pay to try it

High entry web3 threshold

- I don't know how to start
- I need crypto wallet to play

„It's a pay to win!“

- I need to spend money to have fun
- Others already have everything
 - There is no goal to play

... but we have solutions

You can start and play
without blockchain

~~„It's a pay to win!"~~

You don't need to pay
to have fun

Goals which can
be achieved only
by playing

Also for other gamer problems

„You don't spend time with us”
Connecting generations

„You waste your time”
I play and earn

I can't officially earn from playing
**Earning by playing is
supported by developers**

*I can't play where
and when i want*
**Available to play
on Mobile and Desktop**

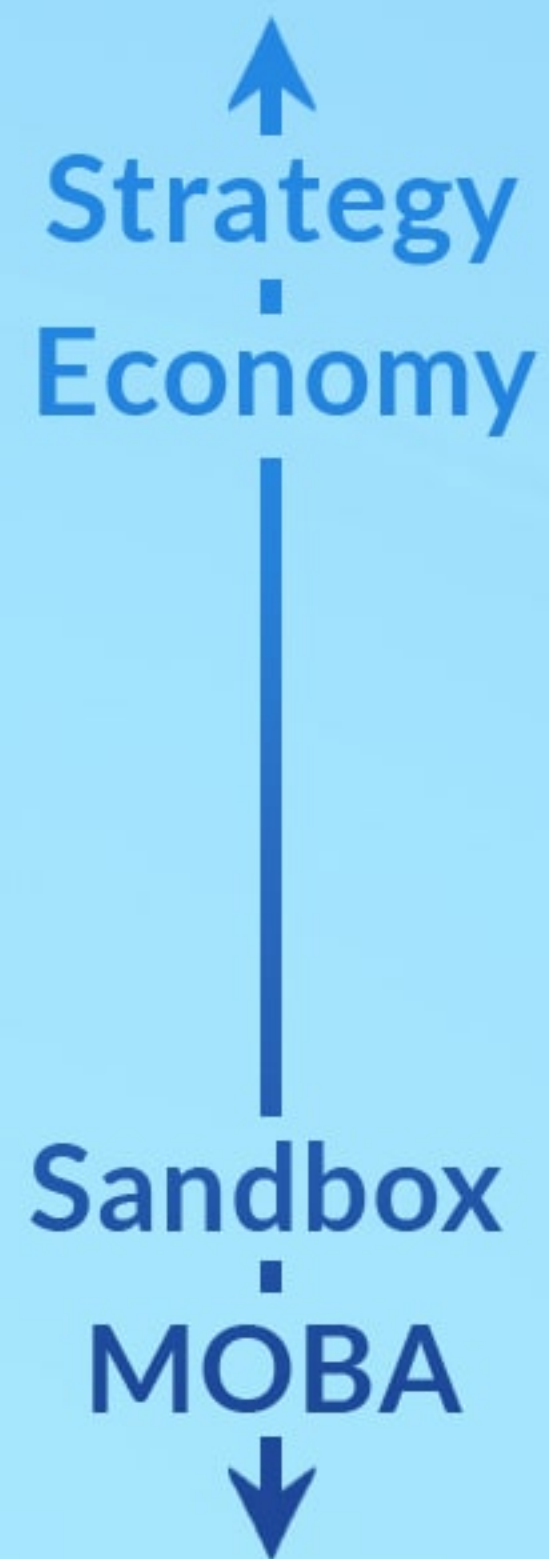

One world for different players

If you have
only 15 minutes

If you have
few hours

If you play
only on mobile

If you are a hardcore player
with gaming desktop

If you are looking for
a relaxing game

If you are looking for
an esports game

If you want an easy
learning curve

If you want to play
a complex game
